

IN THE SPECIFICATION:

Page 1, Please rewrite the title as follows:

CITRULLINYLGARGININE DIPEPTIDE ANALOGS AND ~~THEIRS~~ THEIR
DERMATOLOGICAL USES AS CARE AND TREATMENT AGENTS

Page 1, between the title and the first sentence, please
insert the following:

This application is a division of U.S. patent application S.N.
10/404,058, filed April 2, 2003.

Please rewrite the paragraph appearing at page 4, line 38 to
page 5, line 4, as follows:

The applicant thus identified various synthetic dipeptides. They
were partially or totally functionalized on three of ~~theirs~~ their
potential substitution sites. They have the same biological
properties as the ones noticed for the purified natural substance.
On the other hand, such structures do not display the above-
mentioned unacceptable side-effect.

Please rewrite the paragraph appearing on page 5, lines 32-33 as follows:

Preferred ~~solvant~~ solvent for the said extraction is a mixture of water with ammoniacal ethanol.

Please rewrite the paragraph appearing on page 6, lines 7-8 as follows:

The incorporated proteins will be preferably plant proteins or ~~theirs~~ their hydolysates, such as notably wheat or soya proteins.

Please rewrite the paragraph appearing on page 6, lines 10-12 as follows:

While conforming with current regulations in effect, the incorporated proteins will be preferably animal proteins or ~~theirs~~ their hydrolysates, such as collagen or elastin.

Please rewrite the paragraph appearing on page 6, lines 17-19 as follows:

The incorporated proteins will be preferably other algal proteins or ~~theirs~~ their hydrolysates, such as notably spiruline and microalgal proteins.

Please rewrite the paragraph appearing on page 13, lines 1-14 as follows:

Two series of light therapy sessions were thus conducted:

- first ~~serie~~ series: ten persons had to notice each parameter defined by the applicant, before and after a specific number of sessions with following exposure conditions:

Light intensity : 2500 Lux

Exposure time : 20 mn a day

Treatment prescription : twice a week during a month

- second ~~serie~~ series: the above ten persons had to notice the same parameters with same light exposure conditions as already mentioned and after having applied topically a cream prepared with 7% of algal extract.
